---

August 2018 sees a whole new version of Dialogue, the result of several months' hard work. In Dialogue v3 we've concentrated on the admin and moderation tools, so it's now easier and faster to run successful challenges.

## The big news

### Simple two-click challenge creation

- We've simplified & streamlined the process of setting up a new challenge.
- Admin pages are now tidier, cleaner and easier to use.

### Easier and faster to run challenges

- New in v3, the Challenge Dashboard makes it much easier to successfully manage and facilitate challenges.
- Instantly see how many ideas and comments you've received in all your challenges, and which challenges have had recent updates.
- At-a-glance metrics on the Dashboard help to guide and track key moderator tasks.

## The Importance of Listening: The Practical Democracy Project #6

by Delib

### DESCRIPTION

We're taking the Practical Democracy Project to Dublin, Ireland for the 6th event in the series. We're delighted to be heading across the Irish Sea for an evening of beers, donuts and chatting all things democracy. The idea is to bring together government folks, as well as people from the worlds of tech and civic society to continue our exploration of practical ways to improve democracy.

There is huge interest around topics such as citizen involvement and deliberative methods of democracy at the moment, so we'll be taking this opportunity to discuss what they can mean for decision-making; how can the public's participation in democratic processes benefit society? And what role can technology play in citizen engagement?
