

An update from Delib

From Jessie Ashmore

Delib UK/EU User Group

June 2021

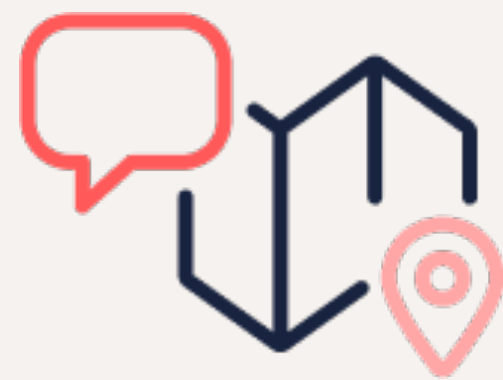

#DelibUG

Citizen Space Geospatial

Place-based engagement throughout Citizen Space

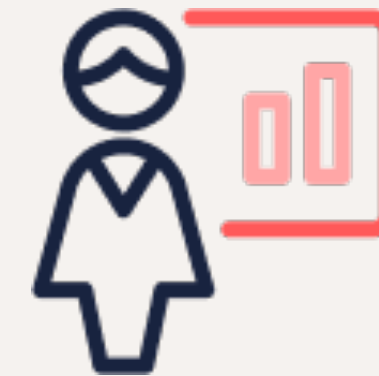

Build beautiful, informative maps that ask people questions

Collect geospatial responses from citizens and stakeholders

Analyse, filter, report and export your data in one place

Publish responses as data for transparency and accountability

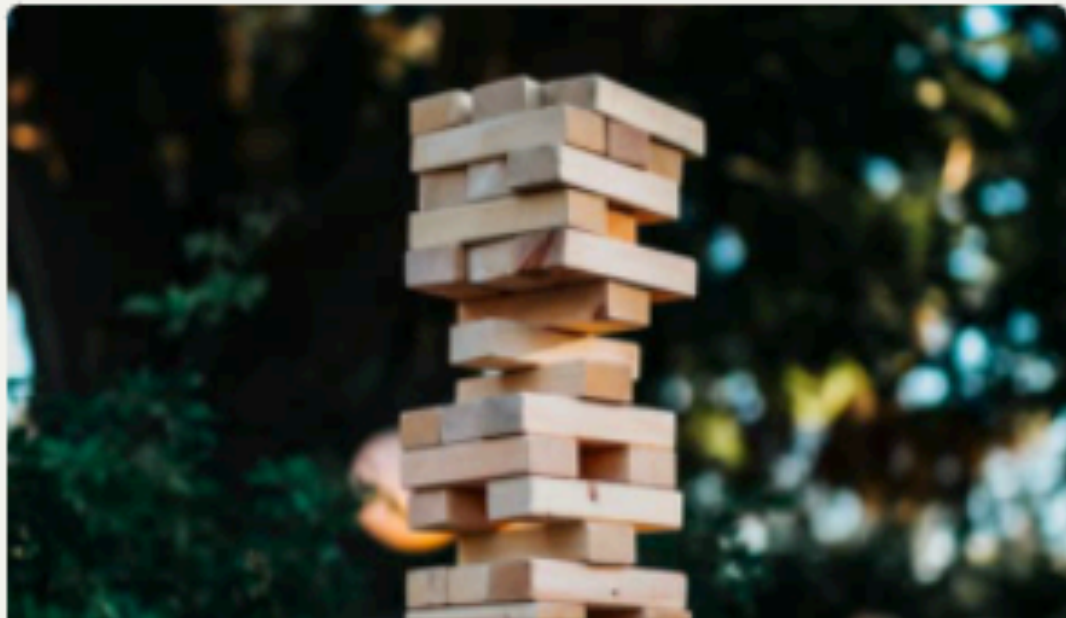

Delib Learn.

Unlock product potential.

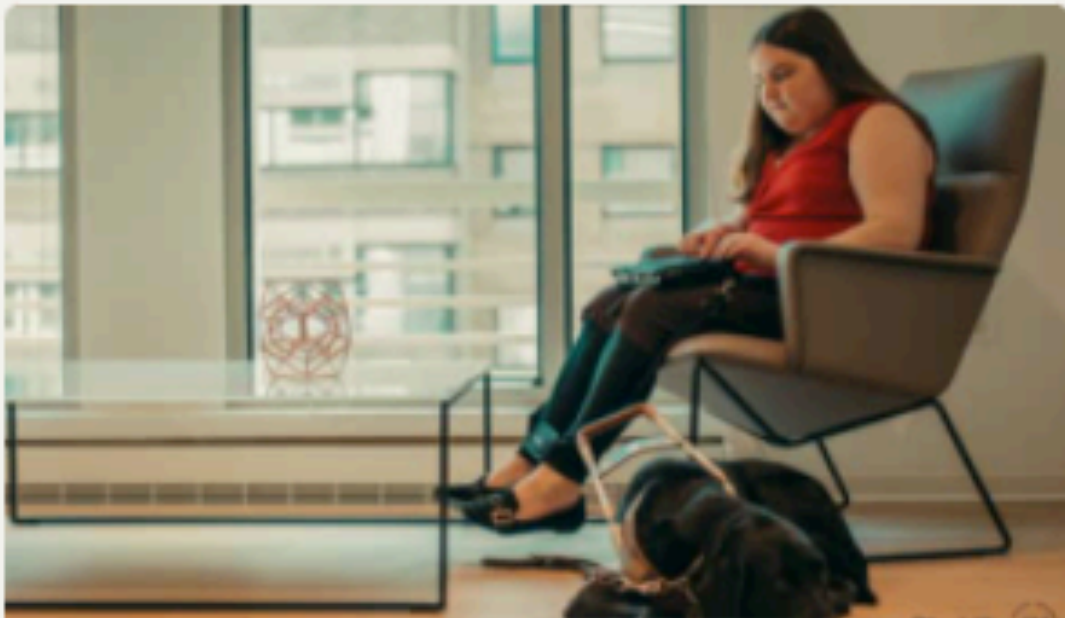

Boost professional development.

On demand webinars

Take learning to the next level. Stream our pre-recorded webinars whenever you want. Watch now.

Good Survey Design

Accessible Design for Digital Engagement

Publishing Online Responses

Closing the Feedback Loop

Today is not really about us...

Configurable landing pages in Citizen Space

How have you **re-**
configured your Citizen
Space sites?

It's not just for **consultation**

What can I configure on my Citizen Space site?

- Change your site wide navigation, ie. 'Consultation hub' to 'Home'
- Add buttons to your 'welcome' text box
- Change the listing titles, ie. from 'Open consultations' to 'Open activities'
- Include images within your listings
- Add additional listings to separate out different activities/projects
- Add additional content to your home page, ie. videos, buttons to link to other pages etc.
- Add additional landing pages to separate informal engagement from formal consultation or for specific project work
